

Jasmin Callosa-Tarr - Exploring our Geographic Mindsets

Jasmin is the APAC Technical Leader and NZ Spatial Lead for Jacobs. She is also the current Spatial Stream Chair for Survey and Spatial NZ, Deputy Chair for NZ Esri Users Group and Secretary for the NZ GIS for Conservation. Jasmin is currently involved in various transport, resilience, climate change, environmental, power and water projects to enable visualisation, create insights, engage with stakeholders, and integrate with other digital solutions.

- Studied Geography at University of the Philippines and Emergency Management at Massey University
- A GIS Professional for 16 years in New Zealand
- A GIS Research Analyst at the International Rice Research Institute
- Involved in Participatory GIS and conservation projects in the Philippines, Southeast Asia, and Southern Africa
- Involved with the “Let’s Get Wellington Moving” project

Curiosity, Strategic, Analytic, Contributive and Creative is Jasmin’s personal and professional branding. She is passionate about sharing her gifts and uniqueness in any part of her life. As a leader, Jasmin believes in inspiring and mentoring innovative and curious people who can freely and effectively use their knowledge and talent to create better communities that we live in.
